SECURED DIVERSIFIED INVESTMENT, LTD  
(Formerly Book Corporation of America)  
Notes to Financial Statements  
March 31, 2003

NOTE 1 - Going Concern  
-----

The Company's financial statements are prepared using generally accepted accounting principles applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company, since its inception has sustained continued losses. Currently, the Company does not have significant cash, nor does it have an established source of revenues sufficient to cover its operating costs and to allow it to continue as a going concern. The Company does not currently possess a financial institution source of financing and the Company cannot be certain that its existing sources of cash will be adequate to meet its liquidity requirements.

There are no assurances that the Company will be successful in any of its endeavors or will become financially viable.

NOTE 2 - Nature of Operations  
-----

The Company was incorporated under the laws of the state of Utah on November 22, 1978. For the purpose of (1) engaging primarily in the specific business of acquiring, developing, owning, selling, leasing, licensing, and otherwise dealing with literary properties and materials, copyrights, licenses, and to carry on a negotiation for, production of, properties in the entertainment industry, and (2) acting as principal, agent, joint venturer, partner, or in any other capacity which may be authorized or approved by the Board of Directors.

On July 23, 2002, the Shareholders approved a change in domicile from Utah to Nevada. In accordance with Nevada corporate law, a change of domicile is affected by merging the foreign corporation with and into a Nevada corporation. On August 9, 2002, a merger between Secured Diversified Investment, Ltd., and Book Corporation of America was completed. Upon completion of the merger Secured Diversified Investment, Ltd., became the surviving corporation and Book Corporation of America was dissolved. On September 18, 2002, the OTCBB symbol for the Company's common stock was changed for BCAM to SCDI. The shareholders also approved amendments to the Company's Articles of Incorporation to change the par value of the Company's Common Stock from \$.005 to \$.001 and to authorize 50,000,000 shares of Preferred Stock, par value \$.01.

On November 15, 2002, the Company notified the Securities and Exchange Commission of their change in fiscal year end from October to December. From this point forward the Company will be reporting on a regular quarterly and yearly basis.

Because of the Company's failure to develop its entertainment business, management of the Company decided to pursue the acquisition of ownership interest in real estate properties that are geographically and functionally diverse. The Company believes that by acquiring interests in properties that are geographically and functionally diverse its portfolio will be more stable and less susceptible to devaluation resulting from regional economic downturns and market shifts. The Company is currently focusing on acquiring properties in markets with strong regional economies.

NOTE 3 - Significant Accounting Policies  
-----

- A. The accompanying consolidated financial statements include the accounts of the Company and majority-owned subsidiaries (Decatur Center). Intercompany transactions and balances have been eliminated.
- B. Investments in companies in which the Company has 20% to 50% other than temporary ownership interest (Spencer Springs) are carried at cost, adjusted for the Company's proportionate share of undistributed earnings or losses. Investments in companies in which the Company owns less than 20% interest (Campus Drive Office Building) are carried at the lower of cost or fair value.

- C. The Company uses the accrual method of accounting.
- D. Revenues, currently consisting of rental revenues, are recognized in the period the rent is earned.
- E. The Company considers all short term, highly liquid investments, that are readily convertible to known amounts within ninety days as cash equivalents. The Company currently has no such investments.
- F. Basic Earnings per Shares are computed by dividing income available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted Earnings Per Share shall be computed by including contingently issuable shares with the weighted average shares outstanding during the period. When inclusion of the contingently issuable shares would have an antidilutive effect upon earnings per share no diluted earnings per share shall be presented.
- G. The cost of property and equipment is depreciated over the estimated useful lives of the related assets. The cost of leasehold improvements is amortized over the lesser of the length of the lease of the related assets for the estimated lives of the assets. Depreciation and amortization is computed on the straight-line method.
- H. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures; for example, the estimated useful lives of assets and the fair value of real property. Accordingly, actual results could differ from those estimates.
- I. The fair value of notes payable to related parties cannot be determined due to the related party nature of the obligations. The carrying amounts of other assets and liabilities, qualifying as financial instruments are a reasonable estimate of their fair value.
- J. Deferred income taxes are provided on a liability method for temporary differences between the financial reporting and tax basis of assets and liabilities that will result in taxable or deductible amounts in the future. Deferred tax assets and liabilities are adjusted for the effect of changes in tax laws and rates on the date of enactment. Deferred tax asset are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will be realized. Cumulative losses incurred since inception create a net operating loss that can offset future tax liabilities; however, because of the uncertainty of the Company's ability to utilize the benefit, an allowance was created to offset the entire benefit (deferred tax asset).

#### Item 2. Management Discussion and Analysis of Results of Operations

##### Overview

The following discussion should be read in conjunction with the consolidated financial statements and notes thereto of the Company appearing elsewhere in this report. Such financial statements have been prepared to reflect the Company's financial position as of March 31, 2003, together with the results of operations and cash flows for the periods ended March 31, 2003 and 2002.

#### Forward-Looking Statements

Historical results and trends are not necessarily indicative of future operations. Management's statements contained in this report that are not historical facts are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Actual results may differ materially from those included in the forward-looking statements. The Company intends such forward-looking statements to be covered by the safe-harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and is including this statement for purposes of complying with such provisions. Forward-looking statements, which are based on certain assumptions and describe future plans, strategies and expectations of management, are generally identifiable by use of the words "believe," "expect," "intend," "anticipate," "estimate," "project," "prospects," or similar expressions. The Company's ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse affect on the operations and future prospects of the Company include, but are not limited to: changes in general economic conditions and in the real estate market specifically (including those in the local economy of the regions where the Company's properties are located), legislative/regulatory changes, availability of capital, interest rates, competition and supply and demand for operating properties in the Company's current and proposed market areas. These risks and uncertainties should be considered in evaluating forward-looking statements, and undue reliance should not be placed on any such statements. Further information concerning the Company and its business, including additional factors that could materially affect the Company's financial results, is included herein and in the Company's other filings with the Securities and Exchange Commission. The Company does not intend to update any of the forward-looking statements after the date this report is filed to conform these statements to actual results, unless required by law.

#### Critical Accounting Policies

The preparation of these financial statements in accordance with accounting principles generally accepted in the United States of America requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. The Company believes that its critical accounting policies are those that require significant judgments and estimates such as those related to revenue recognition and allowance for uncollectible receivables and impairment of real estate assets and deferred assets. These estimates are made and evaluated on an on-going basis using information that is currently available as well as various other assumptions believed to be reasonable under the circumstances. Actual results could vary from those estimates and those estimates could be different under different assumptions or conditions.

#### Revenue Recognition and Allowance for Uncollectible Receivables

Base rental income is recognized on a straight-line basis over the terms of the respective lease agreements. Differences between rental income recognized and amounts contractually due under the lease agreements are credited or charged, as applicable, to rent receivable. The Company maintains, as necessary, an allowance for doubtful accounts for estimated losses resulting from the inability of tenants to make required payments that will result in a reduction to income. Management determines the adequacy of this allowance by continually evaluating individual tenant receivables considering the tenant's financial condition, security deposits, letters of credit, lease guarantees and current economic conditions.

## Impairment of Real Estate Assets

The Company assesses the impairment of a real estate asset when events or changes in circumstances indicate that the net book value may not be recoverable. Indicators management considers important that could trigger an impairment review include the following:

- significant negative industry or economic trend;
- a significant underperformance relative to historical or projected future operation results; and
- a significant change in the manner in which the asset is used.

## Real Estate Investments

Through March 31, 2003, the Company, had purchased interests in two operating real estate properties, limited liability membership interests in three operating properties. Through March 31, 2003, the Company had sold no properties. Subsequent to March 31, 2003, the Company sold one operating property and rescinded the acquisition of its general partnership interest in the limited partnership.

## Acquisitions

On March 31, 2003, the Company consummated an Asset Purchase Agreement with Seashore Diversified Investment Company ("Seashore"), a Maryland corporation, whereby the Company acquired certain real estate holdings from Seashore in exchange for restricted shares of its Preferred and Common Stock. Seashore is a real estate investment trust and is in the business of acquiring, selling and managing real estate holdings. Specifically, the Company acquired two properties and interests in two limited liability companies in exchange for 2,461,606 shares of restricted common stock of the Company and 4,997,807 shares of Series A Convertible Preferred Stock of the Company. The Company's Series A Convertible Preferred shares have the same voting rights as the Common Stock. The primary assets of the limited liability companies and the limited partnership are real estate holdings.

Despite best efforts of both parties, the Company has been unable to consummate a fifth acquisition of the hospitality inn. Due diligence of

the acquisition is on going.

Following is a brief description of the interests the Company acquired from Seashore.

Katella Center, Orange, California  
-----

The Company acquired a 100% ownership interest in a strip mall that consists of six retail rental units totaling approximately 9,500 square feet located on Katella Avenue in Orange, California. Currently, five of the six units are rented. The Company is currently trying to rent the final unit. The rental units are of varying sizes. Judith by Strings, a clothing manufacturer, currently occupies 45% of the strip mall. The rental rates for the individual units range from \$1.04 to \$1.41 per square foot.

Subsequent to March 31, 2003, the debt obligations on this property were refinanced. There is now a first trust deed in the amount of \$370,000, bearing an annual interest rate of 11.50%. This debt obligation is due and payable on May 15, 2005. The current monthly payment, which covers only interest, is \$3,545.83. The Company also refinanced the second trust deed in the amount of \$25,000, at an annual rate of 14.00%. The monthly payment is \$291.66 per month. This payment covers only the interest on the loan. This note is due and payable on May 15, 2004.

All delinquent property taxes have been paid in full and are thus current. Subsequent to March 31, 2003, the Company retained an unrelated third party property management group to manage this property. The management fee is equal to 6% of the monthly rents collected.

T-Rex Mall, Dickinson, North Dakota  
-----

The Company acquired a 100% ownership interest in an 89,642 square foot enclosed shopping mall in Dickinson, North Dakota. The Mall is approximately 70% occupied at this time. Newby's, a hardware store is the Mall's largest tenant, currently occupying 16% of the Mall. The average rent per square foot received is approximately \$.52 and a pass-through expense of \$.13.

The mall is subject to a \$67,000 debt obligation, which is owed to Wayne Sutterfield, a director of the Company. The 6.6 acres of ground is subject to a 50-year ground lease that expires in 2053, and is held by an unrelated third party. The Company has an option to buy back the ground lease.

The Company is currently seeking to retain the services of a management company in Dickinson, North Dakota to manage this property.

Strip Mall, Spencer Springs, Las Vegas, Nevada  
-----

The Company acquired a 50% interest in a limited liability company that owns a strip mall in the Spencer Springs area of Las Vegas, Nevada. Spencer Springs currently has 21 retail rental units totaling 24,336 square feet. Currently 86% of the strip mall is occupied. Amerident Dental Corporation and Chris's Place are currently the Mall's largest tenant, each occupying 4,800 square feet or 20% of the strip mall. The average rental per square foot is approximately \$1.32.

The outstanding indebtedness on Spencer Springs on March 31, 2003 was approximately \$2,125,500. This note on the property matures in April 2008, with a balloon payment of approximately \$1,900,000 due on maturity. The annual interest rate on the note is 9.7%.

Pursuant to an agreement with the other members of the limited liability company that own Spencer Springs, Seashore is required to purchase the other 50% interest in the limited liability company by August 2003 for \$1,000,000. The purchase price may be paid in cash or securities at the option of the other members, one of whom is an officer and director of the Company.

Spencer Springs is managed by an unrelated third party property management group. The Company pays a monthly management fee of

approximately \$1,740.

Decatur Square, Las Vegas, Nevada  
-----

The Company also acquired a 50% interest in a limited liability company that owns a strip mall known as Decatur Square. On April 17, 2003, the Company acquired the remaining 50% interest in the limited liability company from its other members in exchange for 1,552,480 restricted shares of the Company's Series B Preferred Stock and \$123,760. The shares issued were valued at \$.50 per share. Of the shares issued to the remaining limited liability company members, 317,000 were issued to a family trust managed by an officer and director of the Company for the family trust's interest in the limited liability company and the properties. Under the terms of the contract between Seashore and the limited liability company, upon acquisition of the remaining 50% interest in the limited liability company Clifford Strand and William Biddle, officers and directors of the Company received 50,000 and 60,000 shares of Series B Convertible Preferred Stock respectively for commissions from the former limited members company members. The shares were valued at \$.50 per share.

On April 17, 2003, the Company sold Decatur Square to an unrelated third party for \$1,825,000.

Hospitality Inn, Dickinson, North Dakota  
-----

As discussed above, pursuant to the terms and conditions of the Asset Purchase Agreement between the Company and Seashore, the Company intended to acquire a general partnership interest in a limited partnership, whose primary asset was a Hospitality Inn in Dickinson, North Dakota.

The Company is continuing to review the acquisition of the Hospitality Inn and may elect to proceed with the acquisition in the future, subject to the fulfillment of certain conditions precedent, including that the property be deliverable to the Company free and clear of all liens and encumbrances, that the property enter into a sale/leaseback of the ground underlying the property on terms and conditions acceptable to the Company and that the purchase and sale of the property be unanimously approved by all partners of the limited partnership. Certain members of the Company's board of directors own limited partnership interests in the partnership that owns the Hospitality Inn and would be required to abstain from voting on this transaction. The acquisition will be consummated only upon approval of a majority of the disinterested members of the Company's board of directors.

The Company also acquired an interest in the following property.

Campus Drive Office Building  
-----

On January 24, 2003, the Company acquired a 19% membership interest in Diversified Commercial Brokers, LLC. The primary asset of Diversified is an 8,685 square foot office building where the Company maintains its corporate headquarters. The office building is located on Campus Drive in Newport Beach, California. The Company paid \$81,675 for this interest. The remaining 82% interest in Diversified is owned by three directors of the Company.

The office building contains twelve office suites, eleven of which are currently being rented out. It is anticipated that the final office suite will be rented in the near future. The average rent per square foot exceeds \$2.00.

In November 2002, the office building was appraised at \$1,150,000. The building is currently subject to a first trust deed in the amount of \$740,000 and a second trust deed in the amount of \$110,000. The land on which the office building sits is leased. The lease expires on June 30, 2034, with two ten-year options that could extend the lease to June 30, 2054.

The property is managed by an unrelated third party for a \$750 a month management fee.

Dispositions  
-----

The Company sold the land under T-Rex Plaza Mall for \$1,645,000 to an unrelated third party and executed a fifty year ground lease. The proceeds from the land sale were used to pay a \$1,415,000 mortgage on the property and pay closing costs.

As disclosed above, on April 17, 2003, the Company sold the Decatur Square strip mall in Las Vegas, Nevada to an unaffiliated third-party for \$1,825,000. The Company realized a gain on the sale of Decatur Square of approximately \$167,000. Following deduction of costs associated with the sale, such as commissions, escrow fees and closing costs the Company realized net proceeds of \$231,186.

#### Results of Operations

-----

The comparability of the financial information discussed below is limited by acquisitions and dispositions completed during the quarter ended March 31, 2003. As discussed above, during the quarter ended March 31, 2003, the Company acquired a 100% ownership interest in a 9,500 square foot strip mall in Orange California and a 90,000 square foot enclosed mall in Dickinson, North Dakota. The Company also purchased 50% membership interest in two LLCs, one of which owns a 100% interest in a 24,336 square foot, strip mall in Las Vegas, Nevada, the other owned a 100% interest in a 16,500 square foot strip mall also located in Las Vegas, Nevada.

#### Three Months Ended March 31, 2003 and March 31, 2002

-----

As previously noted, comparability of the financial information discussed below is materially impacted by the property acquisitions during the quarter ended March 31, 2003.

#### Rental Income.

-----

Rental income consists of monthly base rent, a percentage of common-area rent, if applicable, pursuant to tenant leases and property operating expenses recovered from tenants. Rental income increased to \$36,586 for the quarter ended March 31, 2003 due to the Company acquiring properties and beginning active operations.

#### Operating and Administrative Expenses.

-----

Operating and administrative expenses consist primarily of third party legal and accounting fees and costs associated with the acquisition and ownership of real properties. These expenses increased \$273,042 to \$286,354 for the quarter ended March 31, 2003 compared to \$13,312 for the quarter ended March 31, 2002. Management anticipates operating and administrative expenses to continue to increase throughout the remainder of fiscal 2003 as the Company seeks to acquire additional real estate holdings and expand its operations.

#### Depreciation.

-----

Depreciation for the quarter ended March 31, 2003 was \$9,034. The depreciation was attributable primarily to the Katella Center, T-Rex Mall and to a new phone system.

#### Interest Expense.

-----

Interest expense consists of mortgage interest paid on the Company's properties and the amortization of deferred financing fees. Interest expense of \$13,365 for the quarter ended March 31, 2003 was attributable to the Katella Center and T-Rex Mall properties.

#### Net Loss.

-----

Net Loss was \$308,132 or \$0.13 per share basic and diluted for the quarter ended March 31, 2003 compared to a net loss of \$13,312 or \$0.01 per share basic and diluted for the quarter ended March 31, 2002.

#### Liquidity and Capital Resources

-----

#### Capital Resources

-----

At March 31, 2003, the Company had \$3,186 of cash and cash equivalents

as compared to \$6,058 of cash and cash equivalents at December 31, 2002 to meet its immediate short-term liquidity requirements. As stated in Note 1 Going Concern, the Company does not have significant cash or other material assets, nor does it have an established source of revenues sufficient to cover its operating costs and to allow it to continue as a going concern. Moreover, the Company does not currently possess a financial institution source of financing. The Company anticipates that it will be dependent for a significant period of time on additional investment capital to fund operating expenses, to meet debt service obligations, and to fund additional property acquisitions before achieving profitability. Since its inception, the Company has covered its capital requirement shortfall through additional financing from its control shareholders. Because of the Company's current negative equity position, fund-raising from non-affiliated third parties may be difficult resulting in continued reliance upon funding from its control shareholders. These control shareholders, however, are under no obligations and have made no commitments to continue to fund the Company.

Operating cash flows are expected to increase as additional properties and investments in unconsolidated real estate are added to the Company's portfolio. Cash and cash equivalents decreased since December 31, 2002 principally as a result of operating expenses.

To date, the Company has paid no dividends and does not anticipate paying dividends into the foreseeable future.

#### Cash Flows from Operating Activities

-----

Net cash used by operating activities was \$110,799 for the three months ended March 31, 2003 compared to net cash used by operating activities of \$61,189 for the three months ended March 31, 2002. This increase in cash used by operating activities relative to the prior period was primarily due to the Company's increased administrative and operating costs as it began to acquire real estate holdings and expenses relating to audit, legal and expanded compliance with federal and state securities laws. The Company had no operations during the same quarter of 2002.

Management expects cash flows from operating activities to increase due to the acquisitions of the Katella Center, T-Rex Mall, and the limited liability company membership interest in Spencer Springs and the Campus Drive Office Building completed during and subsequent to the quarter ended March 31, 2003, as well as the acquisition of additional properties and investments in unconsolidated real estate during the remainder of the year as the Company strategically build its real estate portfolio. Management is currently considering other potential opportunities to acquire real estate. The decision to acquire one or more properties or investments in unconsolidated real estate will generally depend upon (i) receipt of a satisfactory environmental survey and property appraisal, (ii) an absence of any material adverse change relating to the property, its tenants, or local economic conditions, and (iii) adequate financing. There is no assurance that any of these conditions will be satisfied or, if satisfied, that the Company will purchase any additional properties or make any further investments in unconsolidated real estate.

#### Cash Flows Used in Investing Activities

-----

Net cash used in investing activities amounted to \$124,450 for the three months ended March 31, 2003 compared to \$0 for the three months ended March 31, 2002. The Company invested \$81,675 in investments in unconsolidated real estate operating properties during the quarter ended March 31, 2003, (including \$37,250 for tenant improvements at the T-Rex Mall and \$5,850 for a new phone system. In comparison, the Company spent \$0 in real estate investments during the quarter ended March 31, 2002

At March 31, 2003, the Company does not have any material planned capital expenditures resulting from any known demand based on existing trends. However, management may conclude that expenditures to improve properties are necessary and/or desirable.

#### Cash Flows from Financing Activities

-----

Cash provided by financing activities amounted to \$232,376 for the

three months ended March 31, 2003 compared to \$61,189 for the three months ended March 31, 2002. The primary reason for the increase was purchases of real property. Cash provided by financing activities for the quarter ended March 31, 2003 increased by \$171,187 as a result of borrowings related to the acquisition of real estate holdings compared to \$0 borrowed under notes payable for the quarter ended March 31, 2002. The major offsetting use of cash in connection with financing activities included \$59,919 in principal payments on notes payable, primarily related to the repayment of unsecured debt to a related party.

The Company intends to acquire additional properties and make additional investments in unconsolidated real estate and may seek to fund these acquisitions through proceeds received from a combination of subsequent equity offerings, debt financings or asset dispositions.

Pursuant to the Asset Purchase Agreement between the Company and Seashore, the Company acquired Seashore's 50% membership interest in Decatur Center, LLC.
